

Dispex[®] Ultra PA 4560

(old : Efka[®] 4560)

The Chemical Company

general

high-molecular-weight dispersing agent

Dispex[®] Ultra PA 4560 stabilizes the pigment dispersion of inorganic and organic pigments and improves the following properties:

- gloss
- color strength
- flocculation stability
- anti-flooding behavior

chemical nature

modified polyacrylate

Properties

physical form

clear, slightly yellowish liquid

shelf life

Dispex[®] Ultra PA 4560 may partially solidify when stored below 10 °C (50 °F). Heat to 35–40 °C (95–104 °F) to reliquify. When kept in original unopened containers, it can be stored for up to 4 years from the date of manufacture.

typical properties (no supply specification)

solvent	water
density at 20 °C (68 °F)	~ 1.04 g/cm ³
active ingredients	~ 40 %
amine value	~ 25 mg KOH/g
color	≤ 6

Application

Dispex[®] Ultra PA 4560 is, in combination with Dispex[®] Ultra PA 4503, suitable to formulate VOC-free tinting concentrates for both water- and solvent-based decorative paints. These concentrates have excellent compatibility and can therefore be incorporated by the use of low shear forces (shaking machines).

recommended concentrations

Calculation method for the required amount of active ingredient on pigment:

inorganic pigments	10 % of oil absorption value
organic pigments	25–50 % of BET value
carbon blacks	20 % of DBP absorption value

Dispex[®] Ultra PA 4560 should be incorporated in the mill base before adding the pigments.

See our guideline formulations for tinting concentrates for both water- and solvent-based decorative paints.

Safety

When handling this product please comply with the advice and information given in the safety data sheet and observe protective and workplace hygiene measures adequate for handling chemicals.

Note

The data contained in this publication are based on our current knowledge and experience. In view of the many factors that may affect processing and application of our product, these data do not relieve processors from carrying out their own investigations and tests; neither do these data imply any guarantee of certain properties, nor the suitability of the product for a specific purpose. Any descriptions, drawings, photographs, data, proportions, weights, etc. given herein may change without prior information and do not constitute the agreed contractual quality of the product.
