

VertecBio Gold[®] #2EG

Patented Bio-based Solvent Cleaner

Features

- High cleaning power with mild, pleasant odor
- Sustainable chemistry - made from renewable resources
- Low vapor pressure and high loading capacity
- Rinses with water
- 100% Biodegradable to carbon dioxide and water

Benefits

- Effective for parts washing & parts cleaning
- Excellent Solvency for Paints, Coatings and Inks
- Cleans oily materials, adhesives, and inks
- Degreaser for heavy lubes/oils, parts cleaning

Environment

- No global warming compounds
- Not California Proposition 65 Listed
- No HAP's - no Hazardous Air Pollutants
- Not SARA 313 reportable
- 96.5% Biobased content, made from renewable resources

TECHNICAL DATA

Flash Point...	155 °F ASTM D93 closed cup
Vapor Pressure.....	0.78 mmHg @ 68 °F
pH of Water Dispersion.....	4.4
Specific Gravity.....	0.918
Evaporation Rate.....	< 1
Vapor Density.....	> 4
Boiling Point.....	298 °F

U.S Patent Nos. 6,096,699 & 6,191,087

Superior Performance Through Sustainable Technologies!
